## INSTRUCTIONS FOR ORDERING

### WHEN ORDERING:

Minimum total orders should be at least 500 cuttings.  
All varieties should be ordered in multiples of 50.

### PRICES:

Price per 50 opposite each variety. For complete price table see page 4.  
Price per 25, add one cent per cutting over and above the price per 50.

**DISCOUNTS:** 5% Discount for all CASH WITH ORDER orders.  
2% Discount if Charge Orders are paid WITHIN 10 DAYS from date of Invoice.

**TERMS:** Cash to all customers without established credit—at least 50% of the amount must be enclosed with your order if you want us to send it C.O.D. This part payment is necessary because of the perishable nature of the cuttings. If shipment is refused for any reason it is usually a total loss. Charge orders will become due in 30 days from date of Invoices.

**DELIVERY:** All shipments will be made by Express collect unless you specify Air Freight or Air Express collect. We recommend Air Freight for distant shipments.

**CLAIMS FOR DAMAGE:** If plants are damaged upon arrival, NOTIFY YOUR EXPRESS AGENT IMMEDIATELY. Get a BAD ORDER REPORT made out and signed by him. If this is done, your claim will receive prompt attention. You may file the claim direct, or if you prefer, mail us the bad order report, invoice and express receipt, and we will file claim for you. Our packing is all done by men of experience who have done it for years and any trouble must be settled with the carrier. However, we will do all we can to assist you.

**NO GUARANTEE:** While we use every possible care to have all varieties properly labeled and true to name, we, Geneva Floral Co., Inc., give no warranty expressed or implied, also we cannot guarantee a crop as growing depends entirely upon the grower. Our liability, in all instances, is limited to the purchase price of the seeds or plants.

**CANCELLATION:** Must reach our office before shipment has been made. However, if all or any part of your order has been shipped, we can cancel the UNSHIPED PORTION only.

**CARE OF CUTTINGS WHEN RECEIVED:** If your cuttings seem wilted remove wrappers and dip them tops and all in cool water and set the roots loosely in a flat of damp moss for a few hours, or over night, out of doors in the shade or under a cool bench where the wind does not blow on them. If you do this you will find they will revive 100% and then are ready to pot or transplant. **NEVER POT A WILTY PLANT.** You may need to shade some according to the weather. A little wilting after potting will not harm and a light syringing occasionally will help very much. If cuttings are crisp the morning after 24 hours from potting this shows they are taking water and your danger from shipping is over.

Orders accepted will be subject to the above terms.
